

# BOVINE COLOSTRUM POWDER

Packet of 200g

## DESCRIPTION

The ECI powder of bovine colostrum is colostrum of first milking collected from European farms (free of Brucellosis, Tuberculosis, Leucosis). This product is 100% natural. Rich in maternal antibodies, it has a highly nutritious and healthy value.

ECI pays special care to the entire production process in order to ensure preservation of the biological activity of its products.

ANALYTICAL CONTENTS	
PROTEIN	70 %
FAT	1 %
LACTOSE	12 %
DRY MATTER	94 % ± 2%
ENERGY VALUE (KCAL/100G)	350 Kcal
SPECIFIC CHARACTERISTICS	
IMMUNOGLOBULIN (Ig)*	≥ 30 %

\*immunonephelometric quantification

Possibility of certified **IBR free** products  
(no antibodies against BHV1 virus)

*Life*  
WITH A +

Possibility  
IBR free

High  
quality

Minimum  
30 %  
immuno-  
globulin

## DIRECTIONS FOR USE FOR CALF FEEDING

The following steps have to be strictly respected to preserve optimum efficiency of the product:

- **PREPARATION: FOR 1 LITRE OF COLOSTRUM**

- Add 1 packet of 200g to 500ml of warm water (30-37°C)
- Mix
- Add 500ml of warm water to make 1 litre
